# Mathematics made easy

1000 Maths Quiz
Rupa & Co., Price Rs.30

IN which branch of geometry the sum of the three angles of a triangle becomes greater than two right angles? What is Biometry ? Which is the first printed book of mathematics ?

You can get answers to these varied questions in a single booklet *1000 Maths Quiz*.

Written by Dilip M. Salwi, this 144 page booklet published by Rupa & Co. is divided into 25 chapters and each chapter takes up questions from a particular field of mathematics. For instance, there are separate chapters dealing with different aspects like history, contribution of India and the inventors of mathematical formulas.

To test the ability of the readers, four probable answers have been given with each question with correct answers at the end of the booklet. Where required some detailed information has also been provided.

The booklet priced at Rs. 30 is a good bargain.
